BOTANY

(Honours)

(Ecology and Conservation Biology)

[BOTH-502]

Marks : 56

Time : 3 hours

*The figures in the margin indicate full marks
for the questions*

Answer Question No. **1** which is compulsory and
any **four** from the rest, selecting **one**
from each Section

1. Write short notes on the following : 4×4=16

(a) Fire as an ecological factor

(b) Survivorship curves

(c) Detritus food chain

(d) Magnitude of vascular plant diversity
in India

SECTION—I

2. What are physiographic factors? Describe the significance of slope and aspect of a mountain in population distribution of plants. 4+6=10
3. Describe the anatomical adaptational features of xerophytes and epiphytes with the help of illustrations. 5+5=10

SECTION—II

4. Define a population. Describe the attributes of a plant population. 2+8=10
