BUSINESS ADMINISTRATION

(Honours)

(Principles of Economics)

(BBAC-201)

Marks: 75

Time: 3 hours

The figures in the margin indicate full marks for the questions

PART—A

(*Marks*: 15)

1. What is managerial economics?

Or

What are the alternative objectives of a business firm?

3

2. What are the assumptions of indifference curve analysis?

Or

Why is demand forecasting needed? 3

3. What is marginal rate of technical substitution?

Or

Explain the relationship between average cost and marginal cost. 3

4. What are cartels? Name the different types of cartels.

Or

What are the features of perfect competition? 3

5. Distinguish between net interest and gross interest.

Or

Distinguish between money wage and real wage.

PART—B

(*Marks*: 50)

UNIT—I

6. Define utility and wealth. Discuss the fundamental problems of an economy.

2+2+6=10

3

3

3

3

Or

Discuss the significance of managerial economics for managers. Briefly explain Baumol's sales revenue maximization hypothesis. 4+6=10

20D**/1131** (Turn Over)

20D**/1131**

(Continued)

(3)

UNIT—II

7. Define price elasticity of demand. Explain the point method of measuring price elasticity of demand. 3+7=10

Or

What is consumer's equilibrium? Explain how a consumer is in equilibrium under Revealed Preference Theory. 2+8=10

UNIT—III

8. What is production function? Explain the law of variable proportions. 2+8=10

What is a planning curve? Discuss why LAC curve is flatter than the SAC curve. Explain the relationship between average revenue and marginal revenue under imperfect competition. 2+6+2=10

UNIT-IV

9. What is monopoly? Explain how price and output are determined under monopoly.

2+8=10

Or

What is monopolistic competition? Explain how an individual firm is in equilibrium under monopolistic competition. 2+8=10 (4)

UNIT-V

10. What is functional distribution? Explain the marginal productivity theory of distribution.

2+8=10

2

Or

Explain how wage rate is determined under perfect competition in the labour market and under imperfect competition in product market. 10

PART—C

(*Marks* : 10)

- 11. (a) Explain increase and decrease in demand. 3
 - Explain the trend projection method of demand forecasting. 5
 - What will be the elasticity of demand for a product for a monopolist when his firm is at equilibrium?
